Mike has 10 years adjusting experience encompassing all types of field work as well as business development for the Southern Alabama/Florida Panhandle region. He has previously gained experience from being on CAT teams in the aftermath of multiple hurricanes and is now an Assistant CAT Coordinator.

Mike is also experienced in the adjusting of Commercial and Residential Property losses, Builders Risk and Inland Marine claims. An expert in the Xactimate estimating program, he has been utilising this knowledge since 2001.

He is licensed in numerous states as an adjuster and is a former certified Mold Remediator (CMR) and Certified Residential Mold Inspector (CRMI) with extensive practical experience.

Prior to joining Synergy, Mike was Director of Operations and Vice President for a restoration and remediation contractor. His comprehensive background in estimating and developing a scope of work (including mold-related issues) offers clients a unique degree of experience in analysing third-party estimates.
